Certified Public Accountants We have audited the accompanying statement of financial position of the Solar Electric Light Fund (the Fund) as of December 31, 2006, and the related statements of activities, functional expenses and cash flows for the year then ended. These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year summarized comparative information has been derived from the Fund's 2005 financial statements and, in our report dated June 23, 2006, we expressed an unqualified opinion on those financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Solar Electric Light Fund as of December 31, 2006, and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

SOLAR ELECTRIC FUND

NOTES TO FINANCIAL STATEMENTS

For the Year Ended December 31, 2006

1. Organization and Summary of Significant Accounting Policies

Organization

The Solar Electric Light Fund (the Fund) was incorporated in the District of Columbia on August 22, 1990 as a nonprofit corporation. The Fund was founded to promote, develop and facilitate solar rural electrification and energy self-sufficiency in developing countries. These activities are funded principally through non-federal grants and donations.

Cash Equivalents

The Fund considers all money market funds to be cash equivalents.

Investments

Investments consist of corporate stock. These investments are recorded in the accompanying financial statements at their fair market value, as based upon quoted market prices as of December 31, 2006.

Fixed Assets and Related Depreciation

Furniture and equipment are stated at cost and are depreciated using the straight-line method over the estimated service lives of the assets of three to seven years. Expenditures for major additions, renewals and betterments are capitalized; conversely, expenditures for minor repairs and maintenance costs are expensed when incurred. Upon the retirement or disposal of assets, the cost and accumulated depreciation are eliminated from the accounts and the resulting gain or loss is included in revenue or expenses.

Classification of Net Assets

The net assets of the Fund are reported as follows:

- Unrestricted net assets represent the portion of expendable funds that are available for support of the Fund's operations.
- Temporarily restricted net assets represent amounts that are specifically restricted by donors for various programs or future periods.

SOLAR ELECTRIC FUND

NOTES TO FINANCIAL STATEMENTS

For the Year Ended December 31, 2006

1. Organization and Summary of Significant Accounting Policies (continued)

Revenue Recognition

The Fund reports gifts of cash and other assets as temporarily restricted if they are received with donor stipulations that limit the use of the donated asset. When a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Unrestricted contributions and grants are reported as revenue in the year in which payments are received and/or unconditional promises are made.

Functional Allocation of Expenses

The costs of providing various programs and other activities have been summarized on a functional basis in the accompanying statement of functional expenses based upon various methods deemed to justify the benefits received by those programs and supporting services.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

2. Concentration of Credit Risk

The cash and cash equivalents of the Fund are comprised of amounts in accounts at various financial institutions. While the amounts at times exceed the amount guaranteed by federal agencies and, therefore, bear some risk, the Fund has not experienced, nor does it anticipate, any loss of funds. As of December 31, 2006, the amount in excess of the amount guaranteed by federal agencies was \$1,248,477.
